

TURIN ROADSHOW - ORTHOPEDIC TECHNIQUES

BEYOND REHABILITATION

Orthopedics and Physical Therapy: Innovation, New Technologies, and Therapeutic Approaches

When:

November 28, 2026, from 9:15 a.m. to 5:30 p.m.

Where:

The Place, Torino

Abstract:

The Exposanità Roadshow offers a day dedicated to training, professional development, and networking among physical therapy and orthotics professionals and companies in the rehabilitation and orthopedics sectors.

The program consists of training sessions that explore the main challenges in clinical and rehabilitation practice: from foot orthotics to posture and spinal disorders, and from specialized rehabilitation to innovative orthopedic technologies. There will also be focus on new models of patient care and management, the opportunities and challenges of artificial intelligence in medicine, and topics related to sports, disability, and inclusion.

In addition to training, the Roadshow offers networking opportunities and B2B meetings between professionals and companies, fostering dialogue between supply and demand, the sharing of experiences, and the development of new opportunities for collaboration. It is an opportunity to bridge the gap between innovation and professional practice, enhance expertise, and forge new connections among healthcare professionals.

FROM 9:15 A.M. TO 9:45 A.M. - WELCOME COFFEE AND REGISTRATION
