

TURIN ROADSHOW - ORTHOPEDIC TECHNIQUES

BEYOND REHABILITATION

Orthopedics and Physical Therapy: Innovation, New Technologies, and Therapeutic Approaches

When:

November 28, 2026, from 9:15 a.m. to 5:30 p.m.

Where:

The Place, Torino

Abstract:

The Exposanità Roadshow offers a day dedicated to training, professional development, and networking among physical therapy and orthotics professionals and companies in the rehabilitation and orthopedics sectors.

The program consists of training sessions that explore the main challenges in clinical and rehabilitation practice: from foot orthotics to posture and spinal disorders, and from specialized rehabilitation to innovative orthopedic technologies. There will also be focus on new models of patient care and management, the opportunities and challenges of artificial intelligence in medicine, and topics related to sports, disability, and inclusion.

In addition to training, the Roadshow offers networking opportunities and B2B meetings between professionals and companies, fostering dialogue between supply and demand, the sharing of experiences, and the development of new opportunities for collaboration. It is an opportunity to bridge the gap between innovation and professional practice, enhance expertise, and forge new connections among healthcare professionals.

FROM 9:15 A.M. TO 9:45 A.M. - WELCOME COFFEE AND REGISTRATION

FROM 9:45-10:00 A.M. - INTRODUCTORY REMARKS

GREEN EARTH ROOM

Focus on the Lower Limb

From 10:00 to 10:30 a.m. - The evolution of foot orthotics: materials and technologies from sports to senior care.

Presented by **Valter Iozzelli**

From 10:30 to 11:00 a.m. - The role of orthoses in knee rehabilitation protocols.

Presented by **Marco Chimenti**

From 11:00 to 11:30 a.m. - Venous and functional vascular disorders: the relationship between posture and diseases of the venous system.

Presented by **Guido Arpaia**

From 11:30 to 12:00 a.m. - Surgical treatment of flat feet: indications and follow-up.

Presented by **Luisella Pedrotti**

From 12:00 to 12:30 a.m. - Additive manufacturing as a driving force behind the evolution of orthopedic techniques.

Presented by **Marco Zucchini**

From 12:30 a.m. to 1:00 p.m. - Static and dynamic baropodometry: protocols for testing and data interpretation.

Presented by **Andrea Lauria**

FROM 1:00 TO 2:00 P.M. - NETWORKING LUNCH

Focus on the Upper Limb

From 2:00 to 2:30 p.m. - Upper limb prosthetics: From amputation to regained independence.

Presented by **Stefano Colaleo**

From 2:30 to 3:00 p.m. - Compression therapy in the treatment of upper limb lymphedema.

Presented by **Elodie Stasi**

HELIX
GRUPPO TECNICHE NUOVE

From 3:00 to 3:30 p.m. - Robotics in rehabilitation protocols for shoulder injuries.

Presented by **Stefano Capobianco**

From 3:30 to 4:00 p.m. - The Role of orthoses in the conservative treatment of wrist and hand disorders.

TBD

From 4:00 to 4:30 p.m. - New Frontiers in wrist and hand surgery.

Presented by **Julien Teodori**

SALA BLUE OCEAN

Focus Colonna

From 10:00 to 10:30 a.m. - *The ailment of the century: interdisciplinary approaches to the treatment of LBP.*

Presented by **Fabrizio Mancin**

From 10:30 to 11:00 a.m. - *Innovation in spinal support: materials and technologies for the rehabilitation of trunk disorders.*

Presented by **Luca Gualerzi**

From 11:00 to 11:30 a.m. - Postural analysis as a snapshot of overall health.

Presented by **Andrea Lauria**

From 11:30 to 12:00 a.m. - Treatment of acute and chronic back pain: orthotics and electromedical therapy.

TBD

From 12:00 to 12:30 a.m. - *Technology and a multidisciplinary approach to the treatment of scoliosis.*

Presented by **OTODI**

From 12:30 a.m. to 1:00 p.m. - Reconstructive oncology surgery.

Presented by **OTODI**

FROM 1:00 TO 2:00 P.M. - NETWORKING LUNCH

ITALIA COMMUNICATIONS S.p.A.
Gruppo Tecniche Nuove

Soft Skills

From 2:00 to 2:30 p.m. - New protocols for community medicine: the primary care physician as a coordinating figure within the care pathway.

Presented by **Alberica Mea**

From 2:30 to 3:00 p.m. - A psychological approach to the patient.

Presented by **Simona Bisconti**

From 3:00 to 3:30 p.m. - New languages for orthopedics and healthcare: effective and modern communication.

Presented by **Marco Vallario**

From 3:30 to 4:00 p.m. - *Artificial intelligence and medicine: ally or a threat?*

Presented by **Lorenzo Carella**

From 4:00 to 4:30 p.m. - Sports and disabilities: stories of champions who push beyond all limits.

Presented by **Marco Dolfin**

FROM 4:30 TO 5:30 P.M. - CLOSING OF THE ROUNDTABLE DISCUSSION
